

Addition stacks

An addition activity

What you will need...

- Numicon Shapes (two of each Shape 1-10, and extra 1-shapes).

What to do...

- Ask your child to choose a Numicon Shape.
- Then choose two or more Shapes which will fit on top of the first Shape exactly. photo 1
- Ask your child to continue in this way to build up the number stack. photo 2
- Ask your child to say what Numicon Shapes they have used for each layer.
- Repeat to make many different number stacks.
